

PLANETARY
PIONEERS

PLANETARY PIONEERS

Attention *Planetary Pioneers*! Embark on an unrestricted journey! Make the solar system as accessible as the great outdoors! As pioneers, you will navigate through a wilderness of the planets, discovering the natural and sublime wonders that encourage the curious to explore and seek undiscovered life. Be inspired! Ask the grand questions of the yet unknown: What are the natural wonders of the Solar System? Where will we find life on other planets? The answers await you as you venture through the sublime *Planetary Park System*.

Often, we are spellbound by the stunning natural wonders of our world, rich with beauty, harboring mysteries and sometimes revealing evidence of newfound life. So often

overwhelming in their magnificence alone, we cannot help but wonder at the mysteries of nature and the planet we live on. Looking up, we see this same grandeur in the sky – the stunning depths of the Milky Way that inspire our imagination and our desire to explore the unknown.

The Planetary Park System takes the respect and reverence we have for our earthly natural treasures further into the solar system, embracing our neighboring planets as one massive natural wonder within our galaxy.

The *Planetary Pioneers* exhibition experience, inspired and supported by the United States National Parks Junior Ranger program, uses the excitement and the aesthetic of the National Park Service as an overarching theme amidst the backdrop of the Milky Way. As the solar system's map unfolds, you, the *Planetary Pioneer*, will explore the wild frontier of the solar system – the geography, chemistry, weather, orbit and biology of each planet and its satellites.

YOUR TRAIL MAP TO THE SOLAR SYSTEM!

JOIN the *PLANETARY PIONEERS* and see the natural wonders of our solar system like you've never seen them before. Explore the GEOLOGY, BIOLOGY, and ECOLOGY of our largest natural resource—all on our planetary nature trails.

(OUTER) SPACE REQUIREMENTS

5,000 square feet, expandable to 15,000 square feet / 450 square meters, expandable to 1,400 square meters

EXHIBITION IS ALSO AVAILABLE AS A PERMANENT EXHIBITION

Includes facilitation, education and programming

AVAILABILITY

Beginning spring 2017
